EXPERIENCE

Trinity Mobility — Associate Software Developer

Bengaluru, India | Jun 2024 – Present

- Develops and maintains enterprise applications using Java, Spring Boot, Angular and SQL Server.
- Develops and maintains REST APIs and backend services for emergency, disaster and smart-city systems.
- Implements business logic, validations, exception handling and database operations.
- Writes and optimizes SQL queries and stored procedures in Microsoft SQL Server.
- Integrates third-party APIs, weather forecast feeds, and external system services.
- Developed and supports WhatsApp chatbot for Namma112 enabling automated citizen communication.
- Integrated WhatsApp Business API webhooks, media message handling and status tracking.
- Works on IoT/device integrations and real-time data processing with MQTT, WebSocket and FCM.
- Analyzes application logs and troubleshoots frontend, backend, database and integration issues.

KEY PROJECTS

trinityRESPOND (CAD & Emergency Response) | Namma112 & Maharashtra 112

Tech: Java, Spring Boot, Angular, SQL Server, REST APIs, WebSocket, FCM

Backend services for incident creation, assignment, monitoring and dispatch; real-time WebSocket & FCM; SQL Server stored procedures; production root

KaWaCHaM (Kerala Warnings, Crisis & Hazard Management System)

Tech: Java, Spring Boot, Angular, SQL Server, REST APIs, Third-Party APIs

Disaster-related data processing, backend services, and REST APIs; integrated external weather data (Fyllo Actual Weather, Experiq Forecast, CWC APIs)

Namma112 — WhatsApp Chatbot Integration

Tech: Java, Spring Boot, WhatsApp Business API, Webhooks, trinityRESPOND backend

Chatbot workflows for citizen messaging; incoming webhook events (text, media, audio); delivery/read status tracking; backend integration.

trinityENERGY — Smart Energy & Centralized Lighting Management

Tech: Java, Spring Boot, Angular, SQL Server, MQTT, REST APIs

Backend services and Angular interfaces for lighting monitoring, schedules, device status, operational workflows, and IoT real-time data processing.

LANS Lift — Business Website & AWS Deployment (Independent Project)

Tech: Angular, TypeScript, HTML5, CSS3, AWS, Git, GitHub | <https://lanslift.com>

Independently developed responsive business website from requirements through production deployment. Handled Git, AWS hosting, and production supp

TECHNICAL SKILLS

- Languages: Java, SQL, JavaScript, TypeScript
- Backend & Frameworks: Spring Boot, Microservices, REST APIs
- Frontend: Angular, HTML5, CSS
- Database: Microsoft SQL Server, Stored Procedures, SQL Query Optimization
- Cloud & DevOps: AWS, Git, GitHub, Maven, Docker (Basic), Kubernetes (Basic)
- IoT, Messaging & Integration: MQTT, WebSocket, FCM, Kafka, WhatsApp Business API, Webhooks, NiFi, Redis
- Tools: Postman, JIRA, Eclipse, VS Code

EDUCATION & CERTIFICATION

Sri Venkateswara College of Engineering (SVCE), Tirupati — B.Tech, Civil Engineering (CGPA: 8.5)

MGM Junior College (Intermediate, CGPA: 10.0) · Shanthiniketan E.M. School (SSC, CGPA: 9.8)

Certification: Generative AI to AI Agent Masterclass for Software Engineers — Udemy, 2025
